Dissertations in Hydrology

BRITISH HYDROLOGICAL SOCIETY STUDENT AWARD 2026

★ First Prize £400 ★
★ Two Runner-Up Prizes of £200 each ★

The British Hydrological Society (BHS) launched its annual Student Award in 2002 to promote the study of hydrology and raise awareness of the Society at undergraduate level. Prizes are awarded on the achievement, relevance, originality and presentation of submitted final-year dissertations addressing scientific and applied issues in hydrology, judged by a panel drawn from the BHS Main Committee.

The BHS was established in 1983 with the aim of promoting interest and scholarship in both scientific and applied aspects of hydrology. The Society hopes that this award will foster interest in hydrology amongst undergraduates and will encourage them to consider becoming student members of the Society (which is free for undergraduates) as a means of developing their interest and exploring the potential for a future career in hydrology.

Nominations are invited from all UK university departments with an interest in hydrology at the undergraduate level. Only one outstanding dissertation, commended by the student's supervisor, may be nominated per department.

Dissertations must be submitted by **Monday 13th July 2026**

For further information about joining the Society or the Student Award, please see our website at www.hydrology.org.uk.

For further details, please email bhs_education@outlook.com

What does the BHS offer

BHS is a registered charity run by an elected committee solely for the benefit of its members.
BHS holds regular national and regional meetings providing an open forum for the presentation and discussion of important current issues, studies, research, new developments and for the exchange of news and views.
BHS collaborates closely with all other UK organisations active in related subjects and promotes joint meetings.
BHS publishes a quarterly newsletter – *Circulation* – to keep members informed on British hydrological activities.
BHS membership is open to all individuals (including reduced concessionary membership for students and early careers) see How to Join - British Hydrological Society
BHS encourages and supports attendance at national and international meetings through the provision of travel grants.
